

**MEDIA RELEASE**  
**Municipality of Brighton**

**Date: February 5, 2016      Time: 1:30 pm**  
**Subject: Media Release from Mayor Mark Walas**

---

**The Municipality of Brighton Accessibility Advisory Committee in conjunction with Quinte Access is pleased to announce the introduction of a trial Brighton-Trenton Transportation Initiative. This was developed to assist Brighton residents with transportation needs within Brighton, and also to and from Trenton Ward of Quinte West.**

**"This transportation initiative is for ALL residents of the Municipality of Brighton and is also exciting because it allows seniors, individuals with disabilities and/or special-needs to use the transportation as all buses will be accessible", said Nicole Vreeswyk, Chair of the Brighton Accessibility Advisory Committee.**

**"On behalf of Council, I would like to acknowledge the collaborative effort of the Accessibility Advisory Committee and Quinte Access, recognizing the many opportunities this initiative will provide to the residents of Brighton", said Mayor Mark Walas.**

**"Quinte Access is very excited to be part of this pilot initiative. We see this as the next logical step to the Specialized Transportation service that has been provided to people with disabilities & seniors in Brighton for the past 25 years" said Nadyne Mattis, Quinte Access Director of Operations. "Because of the significant increase in Brighton ridership, our vehicles are in Brighton on a daily basis, which afforded us the ability to roll out this pilot project using our existing resources while still providing our door to door specialized service for our registered clients that may not be able to access the transit routes", Mattis said.**

**This initiative will not only provide the opportunity for Brighton residents to use the bus from and to designated areas in Brighton, travel to designated locations in the Trenton Ward and to access the Quinte West Transit system but it will also give Quinte West residents access to designated Brighton locations. The bus will operate on a daily schedule, commencing on February 8, 2016, from Monday to Friday at various times as per the schedule.**

**Any questions can be directed to Quinte Access at (613) 392-9640 or [www.quinteaccess.org](http://www.quinteaccess.org) regarding the schedule. The Municipality of Brighton will provide a link to information and the bus schedule on the website at [www.brighton.ca](http://www.brighton.ca)**
